4 If the shades are motorized, an adequate 12 Volt DC power source is available and can be safely routed to the motor wires If a source of power is not readily available, you may choose to install a small 12 Volt DC sealed battery and charger to operate the shades, or a 120 VAC to 12 VDC converter can be utilized InsTallaTIon ProCedures

Philatelic Shade Discrimination Based on Measured Color

the identification of color shades has been done using two basic methods: firstly, by having reference collec-tions of shades that can be compared to an unknown specimen; and, secondly, by training individuals with innate or intrinsic skills in color-matching to recognize the accepted shades as defined by earlier generations of such color experts
